Space and Naval Warfare Systems Center Charleston Awards Contract

CHARLESTON, S.C. — Product Data Integration Technologies Inc.* is being awarded a \$10,421,927 indefinite-delivery/indefinite-quantity, cost-plus-fixed fee, performance-based contract to provide ship and shore architecture development, new standards engineering, prototype installation, application development, data interoperability, system design, systems management and maintenance; data collection, analysis, and other management implementation efforts in support of Task Force Web, Navy Tool for Interoperability Risk Assessment, Open Systems Interconnection layer testing, Navy Network Engineering, Data Translation, Data Mediation, Data Mapping and many other current and future projects as required by Space and Naval Warfare Systems Center, Charleston. This contract includes four one-year options, which if exercised, would bring the total cumulative value of the contract to \$47,616,944. The work will be performed in Charleston, S.C. (70 percent) and at other government activities (30 percent), and is expected to be completed by September 2006 (September 2010 with options). Contract funds in the amount of \$50,000 (minimum guarantee) will not expire at the end of the fiscal year. The contract was competitively procured under full and open competition, after exclusion of sources, as a 100% Small Business Set-Aside. The Request for Proposal was posted on the SPAWAR Systems Center E-commerce website and five offers were received. The Space and Naval Warfare Systems Center, Charleston, S.C., is the contracting activity for this action (N65236-05-D-6851).
